Index of Latin American Perspectives

Twenty Years of Issues and Events, 1974 to 1993

by

Michelle Gorby and Stan Mallison[1]

This index serves to guide research interests through the 20 years and 79 issues of *Latin American Perspectives* and to update the previous 10-year index published in 1983 by the Latin American Studies Center, California State University, Los Angeles. Our goal has been to provide not just a listing of primary subjects and authors but as comprehensive a listing as is both conceivable and useful. The final product is a long and detailed index that should lead researchers to relevant articles and to subject matter.
